

Keyra Peroxidesox

THE PRODUCT

The KeyraOx oxidizing cream formula gives you an even, softer and adhesive drip-free mixture. Combined with **Keyracolors** tints, it ensures exceptional results.

Developers:

10 Vol. (3%) | 20 Vol. (6%) | 30 Vol. (9%) | 40 Vol. (12%)

PRODUCT BENEFITS

Stabilised formula to maintain the peroxide concentration for longer. Contains hydrolysed keratin which aids in hair reconstruction. Acts by closing the hair cuticle. Makes hair shiny and soft, delivering incredible results after colouring.

APPLICATION

For tints:

- **Keyracolors + Keyracolors Red:** 1+1
- **Keyracolors Super-lighteners:** 1+2

10 Vol. (3%): To lighten one shade.
20 Vol. (6%): To lighten two shades.
30 Vol. (9%): To lighten three shades.
40 Vol. (12%): To lighten four shades.

Bleaching: Add the amount needed to get an even mix.
