

Diamond Oil Keyra

THE PRODUCT

Diamond Oil is an oil that revitalises, nurtures, protects and regenerates hair, repairing it from the inside, hydrating and providing an intense shine. Discover the magic of this hair oil.

PRODUCT BENEFITS

Diamond Oil combines treatment oils and diamond extract.

This exclusive mix of treatment oils provides intense repair of your hair, while the mineral particles strengthen and regenerate each hair fibre, coating and sealing them. This fusion creates a mirror effect that maximises the hairs' light and shine, preventing frizz and breakage, with the hair recovering its elasticity and health.

- **Diamond extracts** and **Mineral Particles** that provide strength, shine and softness, which also seal the cuticle, making combing and styling easier.
- **Argan** and **Camelia oils** that fight against ageing and dry hair, helping to nurture and strengthen each strand of hair.

APPLICATION

Diamond Oil can be used both on wet and dry hair.

When applied to wet hair, you will need a maximum of 3 pumps of Diamond Oil (5ml) in the palm of your hand adding to your hair from half distance to the tips, massage in and detangle. Do not rinse.

On dry hair, apply 1 pump (2ml), rub on the palm of your hand and gently add to your hair from half distance to the tips.

Only apply the stated dose, exceeding this may weigh down your hair.
